Projects

E-Commerce Website

December 2022

- Developed a fully functional ecommerce platform enabling users to browse products, add items to cart, and securely complete orders.

Portfolio Website

February 2023

- Designed and developed a responsive portfolio website to showcase skills and projects.

Coffee-Nearby

April 2023

- Developed "Coffee-Nearby," a web application enabling users to find coffee stores in their vicinity.

Discord-clone

June 2023

- Developed a real-time communication platform similar to Discord, fostering engaging conversations and community interactions.

Threads Social-App

August 2023

- Innovated "Threads Social-App," offering a platform for users to connect, share, and engage in meaningful discussions.

Fiqh with Evidence

September 2023

- Developed "Fiqh with Evidence," a mobile application using React Native to provide users with Islamic jurisprudence supported by evidence. The app includes features such as daily reminders, a searchable database of rulings, and multi-language support.

Chat-App

April 2024

- Designed and implemented a feature-rich chat application using React Native, enabling seamless communication and collaboration among users. The app includes real-time messaging, online status indicators, and media sharing capabilities.
